DETAILED ACTION

1. The amendment filed on August 9, 2004 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 23-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claims 23-25: These claims are dependent upon claim 19 which has been canceled.

They appear to be dependent upon claim 22 and have been treated as such. Affirmation of this is suggested by appropriate amendment.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3673

5. Claims 1-18 and 22-26, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Vilain (US 4,704,049).

Vilain discloses a subsea pipeline support system including a series of restraints/support apparatus (see Figs. 5-6), the restraint including end restraints and intermediate restraints (see Fig. 4), each restraint apparatus comprising of a pair of restraint faces/both distal end (13, see Fig. 3) spaced apart to define a gap therebetween to receive a section of an elongate structure/subsea pipeline (1), each restraint face being configured to control curvature of the elongate structure during lateral deflection thereof, each face providing for lateral movement of the elongate structure within the restraint by means of a structure (18, 21), each restraint face having a curved/circular continuous face (12), each restraint device further comprising a discontinuous face defined by a plurality of restraint zones (17, 17a) which is defined by restraint columns (19, 22) embedded in the seabed or ground (see Figs. 5-6), the columns/legs (19, 22) being connected to one/left column to the other/right column (see Fig. 6) to provide an integral restraint structure (see Figs. 1-6; col.2, lines 61-68; col.3, lines 1-68; col.4, lines 1-3).

Response to Arguments

6. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
